

Rise

Verse 1:

Creation tells the story of never-ending glory
I'm breathing out what You breathed in
When I was still a captive, You wrapped me in compassion
I'm never going back again

Pre Chorus:

Out of the ground, You set me on my feet
God of the garden still creating me

Chorus:

I wanna see You rise
Just like the morning sun
The anthem in my lungs
You're glorious, I wanna see You rise
Above my brokenness
Within my life again
You're glorious, I wanna see You rise

Verse 2:

Your goodness never leaves me
You chase me down with mercy
There's no where I could hide from You
The cross became my ransom
Your blood exchanged for freedom
You take what's dead and make it new

Bridge:

Even in the ground, death can't hold You down
You have risen out of the grave
Spirit breaking out, can you hear the sound
Hallelujah, You made a way

Chorus 2:

I wanna see You rise
The great and holy one
The best and yet to come
Victorious, I wanna see You rise
You make me come alive
My banner lifted high
You're glorious, I wanna see You rise
